

Doing Well, But Just  
2 Shy Dionne Mark

## FREE BOOKS To Be Given Students

**Free Books  
To Be Given  
Students**

**SAN FRANCISCO, March 2**—Backed by a government appropriation of nearly one million dollars and powerful support from important Japanese industrial firms and munition makers, a bureau of the imperial Japanese government is compiling Japanese propaganda for distribution in American schools. It was revealed here today.

The propaganda is in the form of text books printed both in English and Japanese for free distribution to school children in Hawaii and the United States. It was disclosed.

Designed to cover "every phase of modern Japan in a way that will appeal to the average high school student in America," including the Japanese policy of national defense, the books are designed to show the way for negotiations with the United States for an immigration agreement.

The wide-ranging propaganda plot, initiated by the Japanese government bureau of cultural relations and foreign propaganda, includes the distribution of Japanese propaganda in American schools, taking up the plan in detail, have passed considerable review by the Japanese government. The plan is to have the books taken steps to warn school executives of the propaganda.

The plan is to have the books taken steps to warn school executives of the propaganda.

**CORRECT INFORMATION**  
On December 4 last the Japanese Times and Mail, regarded as the most reliable source of Japanese foreign office, published an article.

**APPEAL FUND  
NOW REACHES  
MARK OF \$500**

Today the Seduction Appeal Fund reached the \$500 mark, which is a considerable help in securing for the benefit of the women of Alberta in general and the plaintiff in the Macklin-Hewes seduction suit in particular, a statement of the law of seduction from higher court outside of the province.

The decision that a woman in Alberta is not bound by the law of England for seduction where her "victim" is a contravention of law is a victory of a majority of one judge in a divided court. It may well be the last word of the province will uphold the view of the majority.

**BANK SWINDLE  
RING BROKEN**

**PHILADELPHIA, March 2**—Arrest of five men by federal agents, officials say, has broken up a ring of bank swindlers who had been operating in the United States as far west as Chicago.

Through a shroud of secrecy, police officials said, the ring, which was based on a system of forged checks, was broken up.

**CZECHOSLOVAKIA  
SENT TO JAIL**

**PRAHA, Czechoslovakia, March 2**—Czechoslovakia clapped in high official prison Friday a man alleged to be a member of the ring of bank swindlers who had been operating in the United States as far west as Chicago.

**FREEDOM!**  
Only from free play of ideas can true progress come.

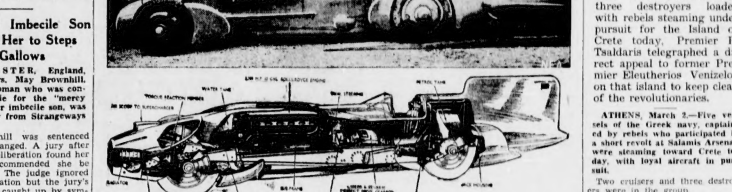

But the free play of ideas is not enough. It is not enough that anyone agree with them, not even their readers.

**Threatened Strike  
Toronto Cops**  
TORONTO, March 2.—There is no fear of a strike of Toronto police officers, Mayor James Shennan announced today, after a meeting of the board of police commissioners. The mayor said an amicable settlement was about to be reached and the strike is off.

**THE BULLETIN**  
"Edmonton's Own Newspaper"

## GREEK NAVY IN REVOLT PUNISHED BY AIRPLATES

**BLUEBIRD  
AND WHAT  
MAKES IT GO**

Top picture shows Sir Malcolm Campbell's famous Bluebird on the sands of Daytona Beach. Below is the most interesting picture of the Bluebird ever printed is the exclusive outline picture in the lower half, which shows what makes a Bluebird go.

**Marital Law Proclaimed  
at Athens—Many Arrests Made**  
ATHENS, March 2.—With two cruisers and three destroyers loaded with rebels streaming under pursuit for the island of Crete today, Premier P. Tsaldaris telegraphed a direct appeal to former Premier Eleutherios Venizelos on that island to keep clear of the revolutionaries.

**ATHENS, March 2**—Five vessels of the Greek navy, captured by rebels who participated in the revolution on the island, were steaming toward Crete today, with loyal aircraft in pursuit.

Two cruisers and three destroyers, were in the group. The armed cruiser Averoff was official announcement have been badly damaged by a bomb from a government plane.

The Averoff is a well-armed vessel, carrying four 9-inch guns and eight 2.1-inch guns. It is of 8,500 tons and normally has a complement of 670 men.

**CLERIC PLEADS  
DOLE WEDDINGS**  
BOSTON, BY BOW, Ed. March 2.—Marriage by the Rev. John St. Michael's church, Rev. Kenneth Atherton, believes in it, and is not deterred by the law.

"It is no more shameful or unreasonable for a man to marry on a public altar than the Duke of Devonshire is to marry in a private chapel," he said.

The vicar said he could see no valid reason why a young man or woman should go to a wedding on a public altar.

"It is very odd that wedding, which is the most important event in a man's life, is considered as shameful in the poor and unenriched."

**PROMOTER OF BIG  
TUNNEL IS DEAD**  
WINNIPEG, March 2.—John Martin, a Salvation Army worker who promoted construction projects that ran into the millions of dollars, is dead here today at the age of 44.

Mr. Martin, the key man behind the construction of the \$35,000,000 tunnel, died in Grace hospital last night following a lengthy illness.

**Searchers Look  
For Lost Woman**  
CHICAGO, March 2.—Northern Rhodesia, March 2.—Hindley, a man armed with torches, plunged through dense jungle in search of a woman, Mary Ann Simpson, who had been missing for some time.

**Berlin Bishop Dies**  
BERLIN, March 2.—The Rev. Nicholas Barmine, Catholic Bishop of Berlin and Prussia, died here today at the age of 70.

**Threatened Strike  
Toronto Cops**  
TORONTO, March 2.—There is no fear of a strike of Toronto police officers, Mayor James Shennan announced today, after a meeting of the board of police commissioners. The mayor said an amicable settlement was about to be reached and the strike is off.

## 62-YEAR-OLD WOMAN GETS HER LIBERTY

**Murder of Imbecile Son  
Brought Her to Steps  
Of Gallows**

**MANCHESTER, England, March 2**—Mrs. May Brownhill, 62-year-old woman who was condemned to die for the "merciful murder" of her imbecile son, was released today from Strangeways prison.

Mrs. Brownhill was sentenced Dec. 1 to be hanged. A jury after five minutes deliberation found her guilty and recommended she be shown mercy. The judge ignored the recommendation but the jury's suggestion was caught up by sympathetic persons from all over the British Isles.

George Henry, veteran labor leader, was one of those who wrote to the Home Secretary to be shown the case.

Two days after sentence was passed the home office informed Lady Brownhill there would be a review.

The frail Leeds woman testified she gave her son some laxative tablets and gas because she feared an operation the faced might be fatal and deprive the helpless son of her attention. She had nursed him for 40 years.

After sentence was passed it was found that the son had died of a heart attack.

**POUND DROPS:  
GOLD SOARS**  
LONDON, March 2.—The pound fell to a record low of 148 shillings, 10 pence, or \$35.37 in terms of the American dollar.

**VON RINTELEN  
FACING COURT**  
VIENNA, March 2.—King Anton Rintelen, former Austrian minister of justice, is facing a court today on charges of complicity in the putsch last July, which was to be his last day.

The prosecuting attorney described Rintelen, who looked very old and frail, as an extraordinarily clever and cautious intriguer who, however, fell victim to his own excessive caution. "He hesitated till he was too late," he said.

**TARZAN GIRL  
MENTAL CASE**  
BUCHAREST, March 2.—Mystery surrounding the female "Tarzan" who charged in a suit from the Carpathian Mountains by Rumanian lumberjacks, has been solved.

Police, after a long investigation, established the identity of the girl, Mandrila, a mentally affected girl who disappeared from her farm home several years ago.

The lumbermen were startled by the sight of the girl, who, apparently between sixteen and eighteen, was dressed in a lion's skin, wild boots and wolves around.

She was clad in a strange covering, and she began to utter words in a strange language, which were evidently for warning, toward the lumberjacks, who had dropped their axes.

**Dr. J. S. Foster  
Gets High Honor**  
MONTREAL, March 2.—Dr. J. S. Foster, a physician and surgeon, was awarded the highest honor in the city, the highest honor that can be conferred on a British subject.

**Hit By Snowball,  
May Lose Sight**  
CHICAGO, March 2.—Struck by a snowball, Richard Womack, 19, son of a well-known Chicago family, is now in the hospital, facing blindness. Surgeons say the right eye is badly injured and the left eye is in danger.

## Here's Happy Landing For Scores Of Alberta Bank Commerce Clients

**CHANGES CITY  
POLICE STAFF  
WILL BE MADE**

**Inspector Mat Blackwood  
To Take Post of Admin-  
istrative Officer**

"It has not yet been definitely decided, but we expect to have all straightened away in the next few days," said Police Chief A. G. Shaw Saturday when questioned about pending changes in rank of several of the police department's key men.

The death last week of Detective John Watson and the transfer back to the city hall collectors office of City Prosecutor A. E. Pople, who since the 1890 police investigation has been Administrative Officer of the department, marks several personnel changes.

**CAMP COOKS  
HAVE THEIR  
NAME FOR IT**

**BRANTFORD, Ont. March 2**—George Woodley's pancake supper, a former of the Carleton Place court here ruled yesterday, was not a success.

Woodley was arrested a week ago for possessing intoxicating liquor without a permit. Woodley claimed it was a special pancake supper connected from potato water, a potato and other ingredients. He was fined \$100 but was not sent to jail.

**WINNIPEG NOW  
FEARS BURDEN**

**WINNIPEG, March 2**—Fear that Winnipeg city council is not relieved of the burden of unemployment relief costs the city might have to pay a portion of its burden, indifference was expressed by Mayor John Owen in a letter despatched today to Prime Minister R. B. Bennett.

"We are rapidly getting into an impossible situation," the letter stated, "and the burden of the rate we are permitted by charter to impose has been reached."

**Extra Ribs Found  
In Woman's Neck**  
SYDNEY, March 2.—A woman who had two ribs in her neck is in the Parramatta Hospital, New South Wales, where surgeons succeeded in removing the extra ribs. The woman, who had never been troubled by the extra ribs, but paralytic illness began in the arms and hands, and an X-ray picture revealed the abnormality.

**Hit By Snowball,  
May Lose Sight**  
CHICAGO, March 2.—Struck by a snowball, Richard Womack, 19, son of a well-known Chicago family, is now in the hospital, facing blindness. Surgeons say the right eye is badly injured and the left eye is in danger.

## SIR MALCOLM FAILS BREAKING HIS OWN MARK

**Speedster Falls Far Short  
Of Former Daytona  
Record**

**DAYTONA BEACH  
SPEEDWAY, Fla., March 2**—Sir Malcolm Campbell failed to hit 200 miles an hour on a southward run, 208.212 northward today, far below his two-year-old mark of 272.108, as he tested his giant Bluebird for further assaults on the world automobile speed record.

**DAYTONA BEACH SPEEDWAY, Fla., March 2**—Sir Malcolm Campbell failed to hit 200 miles an hour on a southward run, 208.212 northward today, far below his two-year-old mark of 272.108, as he tested his giant Bluebird for further assaults on the world automobile speed record.

He whizzed through the first two miles, picking up the pace at a terrific speed, so he hurtled down the course. He was giving Bluebird all it had. He was humping as he went through the mile.

Under perfect, sunny weather conditions, on a beach that was hard and well but lumpy in spots, Sir Malcolm made one run south and another north before calling off the kuts for the day. He is expected to go tomorrow for a new record hopes will be high at 300 miles an hour.

Sir Malcolm's best average two ways was in the mile short of the measured mile, going south where he clocked off the best mile of the day, 233.63, and did 167.10 going back for an average of 200.62 both ways. Record speeds are determined on a basis of two-way average.

**'Frankie' In Life  
Tells How 'Johnny'  
'Done Her Wrong'**

**PORTLAND, Ore. March 2**—On a Friday the 13th in 1899 Frankie Baker went on trial in St. Louis, and it required only two hours to decide in effect that her man "done her wrong."

Frankie is the 39-year-old negro woman now living in Portland, who charged in a suit brought in New York Friday that she, a respectable woman, was portrayed in the picture "Done Her Wrong" as a woman of evil virtue, the consort of gamblers and notorious criminals, and as a murderous fiend who dropped her bomb.

Claiming the motion picture had injured her and hurt her reputation, she asked for damages. The jury, after a night-long deliberation, found for her and awarded her \$10,000.

**Gar Tariff Probe**  
OTTAWA, March 2.—Tariff board covering the duty on gasoline will open in Regina on March 23, it was disclosed by the minister of finance, George H. Suggs.

## Hauptmann's Case Is Fully Reported To Hitler Direct

**BOSTON, March 2**—The Boston Post says a complete report of the information given the German consul general here concerning the Lindbergh kidnapping has been forwarded to Reichsfuehrer Adolf Hitler, by General Hans Hoescher at New York.

The paper says no move would be officially made by the German government in behalf of Bruno Hauptmann until a thorough investigation was made of the information given its consul here. No talking was given as to the nature of the report.

**Consul Won't Say  
Evidence Any Good**

**NEW YORK, March 2**—Dr. Hans Hoescher, German consul-general, is investigating here from the consul general in Boston, which purport to have "additional information" about the Lindbergh kidnapping.

"I cannot disclose the nature of the information," he said yesterday, "and am in no position to say whether it is worth anything or not."

**WOMAN FACES  
MURDER JURY**

**WAPLETT, Sask. March 2**—Miss Gladys Maddock, 31, was committed for trial on a charge of murdering her father who was shot in a bluff near here February 11 last. April will be jury in King's Bench court at spring sittings tomorrow.

Miss Maddock was taken back to Balfour Mental hospital under police escort.

## THE CANCER FUND

Canadians could find no more appropriate or  
useful way to commemorate Accession Day than  
to roll up a huge fund with which to fight the  
 scourge of cancer. This disease is one of the  
terrors of our modern civilization. It is found  
everywhere, its spreading is almost imperceptible,  
and it imposes a staggering amount of suffering  
upon the human race. Nor has science yet  
found either a preventive or a certain cure.

Radium is used extensively in treatment,  
and with good results. That Canada happens to  
be prospectively the world's largest source of  
the precious element, places upon the Canadian  
people a responsibility upon the people of this Dominion  
to take a foremost place in combating the  
 scourge against which this is one of the best  
known weapons.

There will be, as there should be, a very  
general response to the appeal which His  
Majesty is sponsoring behalf of the millions  
of sufferers from this wide-spread and deadly  
disease.

## INTEREST OR WAGES?

There were 4742 men and 972 women registered  
with the Alberta Employment Service a  
week ago as unemployed. It is a fair estimate  
that there are twice that number of young men  
between the ages of 16 and 25 who are looking  
for work and want work, but are not registered.  
As many more are seeking out a precarious  
existence on their own.

The legislature of Alberta and the parliament  
of Canada are in session. No program has  
yet been introduced in either body promising  
to open up work projects when spring arrives  
on any scale large enough to relieve the unemployment  
situation. Yet in both these bodies,  
elsewhere, the point is recognized and  
admitted that the one immediately available way  
to put money in circulation and stimulate business  
is to set our idle population at work for  
wages.

Fear of piling up more unpayable debt is the  
only hindrance to setting the workless at  
work and putting buying power in the hands  
of those who would gladly help to consume the  
embarrassing surpluses of goods of all sorts.  
Bond-interest is the barrier to employment.

## LOST THE FIRST ROUND

Senator Hughes was only wasting his time  
when he proposed the Senate should father a  
demand that if war comes again wealth should  
be distributed as it was in the first world war.  
He was not only wasting his time, but he was  
allowed to make any more money than the man  
in the trenches.

Senator Meighen promptly rallied opposition  
to the suggestion that the Senate should be set  
at war, and the resolution was withdrawn  
when its chance of getting approval faded out.

Senator Murdoch offered the opinion that  
eighty-five per cent of the voters would vote  
for the scheme if it were submitted at a plebiscite.  
At that he under-estimated the favorable  
plurality.

There are not fifteen per cent of the  
people of Canada who hold tax-free war bonds  
or want to make money out of another war  
if one should come, and there are no discernible  
reasons why anyone who isn't interested in  
ambitions in these directions should object to  
the proposition to put the country on a war  
footing when there is no war.

Senator Hughes should bring in his resolution  
again next session, and each succeeding  
session until he gets action on it. Even the  
present Senate could not be expected to do  
the growing popular demand that war shall not  
be profitable to anybody.

## POSTPONED AGAIN

Members of the legislature went on record  
as unanimously in favor of the building of a  
railway outlet from Peace River to the coast.  
It may be assumed that the people in central  
and northern Alberta also practically  
unanimous on that subject.

But unanimity in the legislature and general  
approval among the people of the province  
will not be the road built or started this year.  
Parliament decided that a week before the  
resolution was passed in the legislature.

The Commonsense Committee through the  
annual meeting approving the general idea, with  
the usual amendment added by the Minister  
of railways, that the road be built "when circumstances permit."

Use and experience have established that  
peace being the accepted manner in which it  
is to be initiated, that construction of the  
Peace River outlet is to be deferred until some  
future season. If there were any intention to  
build or start the road this year no object

could be attained by attaching this customary  
postponing proviso to the annual resolution.  
The conclusion is as obvious as it is un-  
cavalier to all who are interested in the develop-  
ment of the great north-western area and in  
the provision of wage-jobs for idle men who  
could be thus employed. It has to be taken  
that, on motion of Mr. Manion, the project is to  
be left in abeyance for another year.

## LIQUIDATORS CALLED IN

Having loaded up with wheat to the tune of  
several hundred million bushels, at prices run-  
ning up to 30 cents a bushel above the world  
price, Premier Bennett now proposes to set up  
a grain board to liquidate these vast holdings in  
an "orderly and profitable way."

The taxpayer, who has supplied the credit  
for the speculation, and will have to supply the  
cash if it turns out wrong, will hope the  
liquidating may be done profitably, whether  
orderly or not.

Ontario's grain board can find more buyers  
abroad than Mr. McFarland has been able to  
find, there is room to suspect there will not be  
much marketing, orderly, profitable or other-  
wise. Thus far in the shipping season, Canada  
has held its wheat while the Argentine has  
filled up the warehouses in Europe and Aus-  
tralia and the United Kingdom.

The director of the supposed selling opera-  
tions for the pools thinks the supplies in those  
producing countries are now running low, and  
that Canada may have a chance to move to  
a market clamoring for wheat it can't get any-  
where else. In that case, wheat board or none,  
Canada's last year's crop can be sold, perhaps  
at a price higher than the Government backed  
the pools in paying for it.

Details as to the powers the board is to have  
are not yet known. It is hoped it will be  
awarded with wide interest throughout the  
west. No doubt they will need to be broad if  
the board is to extricate the Government from  
the predicament into which it has run in  
giving the price of wheat above the world level  
while still trying to maintain the "sound" money  
tradition.

## Forty Years Ago

From the Files of The Edmonton Bulletin

P. Pattie left Saturday for Halifax.

Messrs. Gariepy and Chenevix are adding a  
frame annex to their store on Jasper Avenue.  
Mr. and Mrs. Fred Ross have returned from  
the east.

Township 34, range 23 has been proclaimed  
a statute labor district. This includes the Horse  
Hills settlement.

W. B. Barvis of Calgary arrived on Wed-  
nesday last night.

Speakers at the Montreal minister of agri-  
culture said the government would accept but-  
ter from the British last evening.

Alberta Liberals, meeting at Calgary, nomi-  
nated Frank Oliver as their candidate for the  
Commons at the next election.

Messrs. Hett and Hett have installed an  
elevator in their planing mill.  
T. S. Gossell, inspector of inland revenue,  
left for Regina today.

Mr. and Mrs. Boswell of Poplar Lake,  
returned Saturday from Detroit.

## THIRTY YEARS AGO

A flock of geese was seen flying over the city  
yesterday.

John A. Evans of the Toronto Globe came in  
from the south last evening.

Ottawa.—The Premier announced the resig-  
nation of Hon. Clifford Sifton in the Com-  
mons, which was accepted by the House of  
Commons on the school closes of the autonomy bills.

Ottawa.—Sir Mackenzie Bowell made his  
expected statement in the Senate regarding his  
resignation. He said he had received a letter  
reiterating his celebrated allusion to the "rest of  
tortures."

W. Ramsey, principal of the Edmonton pub-  
lic schools, leaves this week for Ontario.

A full house greeted the first appearance of  
the Edmonton Olympic Society in "Box  
and Ball" and "Prize Fight," in Robertson Hall  
last evening.

## TWENTY YEARS AGO

The bylaw to raise \$36,000 with which to  
acquire the Viking gas well was rejected by the  
burgesses yesterday.

The operating committee has notified the  
street railway men that the present agreement  
must be given up or the men will be given 30  
days notice.

A plebiscite on prohibition, to be taken  
on July 21st, will, it is estimated, cost the province  
\$100,000.

Ottawa.—Premier Assiniboine gave the House  
of Commons the reply of the British govern-  
ment to the German blockade: "If the com-  
bined fleets of Great Britain and France can  
prevent it, no commodity of any kind except  
those now on the sea shall until the end of the  
war reach or leave the shores of Germany."

## TEN YEARS AGO

Ottawa.—Four times more severe than any  
previously recorded here was an earthquake  
which shook eastern Canada and the eastern  
States on Sunday. The entire province of Que-  
bec felt the tremors.

Toronto, B.C.—One of the most severe earth-  
quakes ever recorded here occurred last night.  
New York.—Scientists of many lands were  
today trying to find the point of origin of the  
earthquake that shook Canada and the eastern  
part of the continent yesterday.

Berlin.—The federal president Ebert will  
be held on Wednesday.

## Poems That Live

DUST

When the white flame is laid to rest  
And we that lost the world's delight  
Are left to find our way through the night  
To tremble in our separate night;

When your soul has been in quiet in death,  
And your good friend has been corrupted through  
Has stilled the labor of my breath,  
When we are dust, when we are dust!

—Rupert Brooke.

## The Passing Show

By J. S. COWPER

The logic of events that will some day make  
it necessary for western Canada to become  
a separate self-governing Dominion, has been  
remarked upon in this column on several occa-  
sions. It was made the subject of a speech in the  
Alberta Legislature by A. M. Matheson.

M.L.A. for Vegreville. More recently P. has taken form in  
British Columbia. A. M.  
Manson, K.C. former attor-  
ney general of that province  
devoted most of his speech  
last week in a debate on the  
address to warning eastern  
Canada that, "a political  
rebellion will ensue unless  
the bargain at between British  
Columbia and the east is  
revamped."

The address is said by the Vancouver Province  
to have been "really the most outstanding  
of the House's two weeks debate"—that, despite  
the fact that crowded galleries gathered to hear  
a two hours speech by Mayor "Vercy" McGeer  
who is a member of one of the Vancouver com-  
munities. When Mr. Manson ventured the  
opinion that in making a demand for better  
terms under the alternative of secession Premier  
Pattullo would "have the support of every mem-  
ber of the House," applause from both sides of  
the chamber rang out.

British Columbia's year bought approxi-  
mately \$100,000,000 worth of goods from eastern  
Canada—principally manufactured goods.

The east reciprocated by buying \$4,500,000  
worth of goods, principally raw materials.

And that isn't the worst. B.C. has Alberta  
pays enormous sums of money to the east for  
the world market price for manufactured goods  
in order to maintain eastern Canada as a manu-  
facturing zone. On the 100,000 or more auto-  
mobiles and trucks of the east, they pay the  
province, her people will have paid \$400,000,000  
more than world prices as a contribution to the  
east's prosperity.

Even that isn't the worst. Industries like  
mining which are indigenous to the economic  
life of the coast province are handicapped by  
the greedy demands of the east for high prices.  
A miner can't prove up a claim, place a  
with a Keystone drill, or install a mill or a  
concentration table unless he pays 42 per cent  
over and above the world price for the coal  
in the eastern manufacturer. The coast province  
with its wealth of forest and mineral, its cheap  
water power, all-the-year-round climate and its  
open ports facing across the Pacific the  
greatest potential markets of the world, is be-  
ginning to realize the price it paid for enter-  
ing Confederation.

Whether western Canada is ever sub-  
mitted in the state of a colonial  
possession of the east, to be ruled when it  
goes in hand to beg for things of what it has  
given to enrich the federal treasury, remains to  
be seen.

The speech of the former attorney general  
of B.C. shows that the loaves of unrest is at  
work. Its effect will be felt in Alberta in due  
course.

Liberal members at Ottawa did not succeed  
in their drive to have the coast province's  
National Railway system reduced by \$1,700,000,  
to bring it to a workable level, but they  
have probably made certain the \$550,000,000  
reduction recommended by the railway  
auditors George A. Touche and Co.

If the C. N. R. had been a privately owned  
system, application to the courts would have  
been made long ago for a judicial order  
for the advance which are without hope of repay-  
ment.

The firm of Touche and Co. are not being  
recompensed by the government this year, but  
the Minister of Railways stoutly denies that  
the government is taking this method to punish  
the auditors for rendering a service to the public  
by wiping out those portions of the capital structure  
owned by the government.

## Graduate Your Exercise

By DOCTOR FRANK MCCOY

People who are beginning to take up exer-  
cising usually make the mistake of overdoing  
it at first. When muscles have not been lim-  
bered up for years they may become stiff and  
 sore for several days after only a few minutes  
 of heavy exercising. Those who take up exer-  
cising too suddenly usually quit just as sud-  
denly. They feel the aches and pains that  
 have been brought on by overdoing it. They  
 conclude that exercise may bring a  
 greater strength for every-  
 body else, but it just isn't  
 their medicine.

I always find it necessary  
 to advise nervous, enthu-  
 siastic patients to take very  
 gradually with exercise, tak-  
 ing it first in moderate amounts and gradually  
 adding more as the strength permits. In this  
 way, exercise builds up without over-tiring and  
 one reaps the full benefit of added strength and  
 endurance.

When exercise is done too good, it makes  
 your eyes bright, your cheeks rosy, the skin  
 does not look faded, there is a spring to the  
 walk, the patients enjoy life, feels renewed  
 with vigor, and comes to meals renewed  
 as a bear.

The signs of over-exercising are: The eyes  
 are dulled, the face looks pinched, the skin  
 is gray, the patient feels tired, is nervous,  
 doesn't want to eat, snaps at the least excuse,  
 and is too tired to sleep.

The prime test for exercising is not how  
 tired it makes you, but how good it makes you  
 feel after a full night's sleep. If you feel irri-  
 table and disinclined to move the next day,  
 then you have over-exercised. The whole  
 vitality is low cannot afford to exercise to the  
 point of exhaustion. In exercising you must  
 learn when you are exhausting your own  
 strength limits. Exercise is a game, and you  
 must not overdo it. Exercise should be taken  
 until you feel pleasantly tired. When you exer-  
 cise and begin to stage by stage, you may  
 how much you can, you may become so  
 keyed up that you cannot relax.

Do not make the mistake of thinking that if  
 a moderate exercise makes you feel good,  
 a great deal of it will make you feel bet-  
 ter. During vacation time many people make  
 the mistake of over-exercising, hiking or dan-  
 cing until they are sore in every limb. It is  
 much better if they took their sports less stren-  
 uously. On the other hand, it is not a good  
 plan to take a few exercises and never increase  
 the number. Begin slowly, and as your muscles  
 become stronger, either take the exercises  
 more often, or increase the number.

You can see your strength gradually increasing.  
 You feel encouraged. This is the way to build  
 strength and vitality that is lasting.

Exercise is a game, and you must not overdo  
 it. Exercise should be taken until you feel  
 pleasantly tired. When you exercise and begin  
 to stage by stage, you may how much you can,  
 you may become so keyed up that you cannot  
 relax.

## SUCH IS LIFE—By Walt Munson

"I can't find it. You ought to get over that habit of taking  
your shoes off every time you sit down."

—By FRED WILLIAMS

On this date in 1860 the death  
took place of Hon. James Crooks,  
M.L.C. of Flamboro, Upper Canada,  
a Scot who did much to de-  
velop the Niagara district, the  
man who established the first  
paper-mill in Upper Canada. He  
was the first at Loy, family  
wounded him, and then turned on  
Lowe, who however, saved his  
life. He was the first to be  
wounded in the local post, but so intense  
was the indignation of the town-  
folk that he had to be removed  
to Beauharnois for safekeeping.

In due course, he was tried at  
Valleyfield, convicted and sen-  
tenced to imprisonment for life.  
He was removed from there to  
the wharf from a brig at Mon-  
treal. He is a good gentleman, and  
he is older than you, 20 years  
your senior. You have never seen  
him, but you have heard of him.  
He was at the side of a great  
river and a great city, and he  
was there when the world was  
young.

When you were married, it was  
to the man who will help you to  
the wharf from a brig at Mon-  
treal. He is a good gentleman, and  
he is older than you, 20 years  
your senior. You have never seen  
him, but you have heard of him.  
He was at the side of a great  
river and a great city, and he  
was there when the world was  
young.

## Tiny "Fairy Castle" Is Star's \$435,000 Gift To Crippled Children

### COLLEEN MOORE'S LAVISH DOLL HOUSE, 14 FEET HIGH, HAS ROOM FOR NEARLY EVERYTHING EXCEPT IMPROVEMENT

The great hall and grand staircase.

Tiny bed chamber beckons the weary fairy prince.

Kitchen is chef's dream come true.

After nine years' construction work and the investment of \$435,000, the world's most elaborate doll house now stands in Hollywood. It was built at the direction of Colleen Moore, distinguished movie actress, to raise money to help crippled children. After a few more weeks for the finishing touches, the marvelous structure will be taken to New York to be placed on exhibition—the start of a worldwide money raising tour.

Fourteen feet high and nine feet square, Miss Moore's doll house is built to represent the castle of a fairy prince, and is a real in every detail. Towers surround it. In the garden pool tiny fair swins and a nightingale sings. By use of reducing glasses a beautiful girl is made to appear as a tiny fairy princess in the garden grove; and she answers spectators' questions as the dainty.

Many of the furniture was brought from the shops of Hollywood especially for each room. Furnishings are complete in every respect and as luxurious as any palace in the world—and that includes ballrooms and kitchens as well as the great hall, salons and chambers. Miss Moore expects to raise many times its cost through exhibiting the marvel, which, by the way, is so big to move around—it weighs three tons.

European miniature craftsmanship, but the rest was made in Hollywood especially for each room. Furnishings are complete in every respect and as luxurious as any palace in the world—and that includes ballrooms and kitchens as well as the great hall, salons and chambers. Miss Moore expects to raise many times its cost through exhibiting the marvel, which, by the way, is so big to move around—it weighs three tons.

## LARGE WORK CARRIED ON AMONG YOUTH

### Religious Education Council Reports Extensive Activities

With R. W. Hibbert, M.A., B.D., and Constance Smith, B.A., as executive secretaries, the Religious Education Council, which is now holding its annual financial campaign, carries on an amazing amount of work among the boys and girls of Alberta.

Under its Girls' Work board, it distributes literature and other supplies to 350 districts of 45 girls to Sunday Schools and C.C.T.V. groups. Last summer it supported 20 camps attended by 45 girls from 107 centres, and conducted eight district conferences where 73 girls studied and debated such topics as "Peace and War," "New Social Order," "The Girl and the Church," and others. Last year Miss Smith held camps for girls and their mothers in 51 centres.

Under its Boys' Work board, which is controlled directly by the Religious Education Council, there are 128 Trail Ranger groups embracing 1,100 boys, and 100 Scout groups with a total enrolment of 450 boys.

"Training for leadership" is provided through mentors clubs, leadership camps, local study groups and correspondence courses. In 1934 there were 10 camps attended by 452 boys. The annual Boy Parliament is an important feature of its work.

The council also maintains a children's work board in connection with which it promotes Extension groups for 9 to 12 years, and operates summer camps for 12 to 16 years. Through its general office it has contacts with over 700 Sunday Schools, with an enrolment of over 60,000. It also gives great assistance to leadership camps among young people groups.

## Scoutmaster Gets Farewell Present

PROVOST, March 2.—At the regular meeting of the Provost Scout group last week S.M. G. W. Blackman was a visitor at the den of the second Rover crew. He was presented with a token of appreciation by A.M. H. Wilson, who has been Scoutmaster of this group for the past year, and has given valuable service to the group which he has acknowledged with the gift and three hearty cheers. He left for his home where he will take up his chief work at Norwich.

At the recent meeting held at the scout hall, Mr. Blackman has been presented with a token of appreciation by A.M. H. Wilson, who has been Scoutmaster of this group for the past year, and has given valuable service to the group which he has acknowledged with the gift and three hearty cheers. He left for his home where he will take up his chief work at Norwich.

## Strong Rivalry In "Tech" Stunt Night As Girls' Play Wins

### Twenty-one classes took part in the well organized program. Competition was strong, and the three judges had a hard time picking the winner.

The winners were "I Y," a first year girls' class under the direction of Miss J. Miller. The girls put on a clever dramatic play called "The Fatal Quest," and though the time was limited, they managed to make it very effective.

Another sound picture show was presented by a large group of the girls of Tech. Tuesday evening at the school. It was mainly a comparison of the Diesel engine with the gasoline engine for tractor purposes.

The picture showed the various types and models of tractors into which the Diesel motor can be incorporated for a variety of uses.

It showed the trials which really tested the stamina and power of the engine. The uses to which it was put were varied of which the following are some: plowing land, driving pumps, besides supplying power for the many needs of the farm.

COMIC BOOKS. The picture showed the various types and models of tractors into which the Diesel motor can be incorporated for a variety of uses.

## DEBT PAYMENT DEBATE LASTS FOR FORTNIGHT

### South Side Young Men's Club Discusses Politics and Economics

Organized last fall by a group of young men interested in politics and economics, the South Edmonton Young Men's Club has established a reputation as a discussion group. An intensive study of the various political platforms and of prevailing economic conditions has been the order of the day.

Ralph Collins, scholarship student who studied in Geneva last summer, addressed the club on "The European Situation," and many other speakers have been heard.

It showed the trials which really tested the stamina and power of the engine. The uses to which it was put were varied of which the following are some: plowing land, driving pumps, besides supplying power for the many needs of the farm.

COMIC BOOKS. The picture showed the various types and models of tractors into which the Diesel motor can be incorporated for a variety of uses.

## Edmonton Boys' And Girls' Fair Booklet To Be Ready Monday

### Strathcona Baptist Young People Will Against Macdonald Group

Another new feature this year will be the special arrangement in regard to the track and gymnastic events. Owing to the many entries in this field last year, it has been decided to hold the two separately the first as an outdoor athletic meet and the second as an indoor gymnastic event.

Ticket managers are Fred Fisk, manager of the Texas council, and Elton Broadbent, president of the C.G.T. council.

Prizes will be offered for ticket selling and many boys and girls who may find it difficult or impossible to prepare exhibits may participate in the fair honors in this way.

## Stepping Along

A Weekly Column Dedicated to the Youth of Alberta by the Edmonton Youth Men's Liberal Club

During the past few weeks I have been discussing in this column the problems which are facing the youth of Alberta, and the economic and political standpoint. As, however, all of these problems are really tied up to two definite points, their financial and local conditions, I feel that it now seems necessary to discuss these two points which must be the basis of any solution.

The first aspect of the situation is defined entirely by the B.N.A. Act, by which it means that as we stand at present, the scheme for the future of the country must be constitutional under that Act.

As a result of this, however, we are able to introduce any satisfactory solution in our economic problems or we must necessarily alter the B.N.A. Act or formulate and adopt a procedure for its amendment.

The major difficulty in securing this imperative return lies in the fact that the majority of the people who are protesting these rights, but has failed to do so well when the best interests of the country as a whole are considered.

The theory that the consent of the people is necessary for any amendment is no longer tenable, the rights of racial and religious minorities must be safeguarded but outside of the above noted provisions should not be required.

I confess that I have very little influence with the assembly that the B.N.A. Act is a necessary condition of revision of the B.N.A. Act and I am not sure that the majority of our people are of the same mind.

The theory that the consent of the people is necessary for any amendment is no longer tenable, the rights of racial and religious minorities must be safeguarded but outside of the above noted provisions should not be required.

## Garden Of Eden To Flower Again!

Map indicates site of Garden of Eden. Picture shows area reported to have been land of Adam and Eve.

In that area, according to both modern research and Hebrew tradition, lies the site of the Garden of Eden.

Today it is a tract of desert, a place of utter desolation and half-mooned sand dunes. It is the site of the Garden of Eden.

When the irrigation scheme is in operation the Bedouins will be invited to abandon their nomadic life and settle on the land.

To some named Arab will fall the honor of cultivating the land where Adam and Eve walked before the Fall.

Archaeologists have discovered the ruins of a city which was built by the Bedouins.

**WOULD LIMIT  
SPEECHES TO  
40 MINUTES**

### Resolution to Shorten Debates to Come Before House

Limitation of speeches in the Alberta legislature to 10 minutes is advocated in a resolution placed on the Order Paper for discussion by George Andrews, U.F.A., Redgewick.

"No member, except the Premier and the recognized leader of an group of members, or a minister moving a government order and the member speaking in reply immediately after such minister, or member making a motion and minister replying thereto, shall speak for more than 10 minutes at a time in any debate."

For one session the rule was on the books the last time. Several members, in various debates, fell under its provisions and had to abruptly terminate their remarks.

This session, speeches have been unusually long, with the backbenchers occupying, for the most part, the greater part of the time.

# THE NEW AUTOMOBILES OF 1935

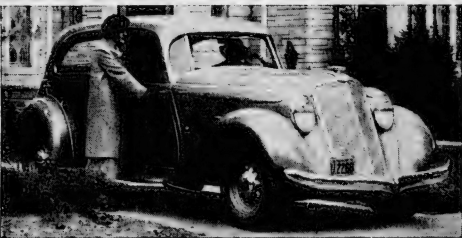

ALL ON DISPLAY IN THE SHOWROOMS OF EDMONTON DEALERS

## Electric Shift, Steel Top for Hudsons

Both Hudson and Terraplane appear this year with the all-steel top as standard among their improvements, and electric gear shifting as optional. Also new for 1935 is the Hudson Big Six, shown above, much similar in appearance to the new Terraplane. By means of the electric shift, the driver may select the proper gear for acceleration or deceleration before the change actually comes, and leave the rest to the new mechanism. Terraplanes, complete at Edmonton, sell from \$1025—Hudsons at \$1265 for the 6s and \$1325 for the 8s. See them at Freeman Co., Ltd., 101 St. and 107 Ave.

## Hupmobile Departs From Standard Lines

You'll find quite a departure from the average automotive body design in the new Hupmobile models for 1935, although they're not quite so extreme as two other automotive products. Note how the hood laps over the headlights and how the rear lines of the coupe shown above seem to fit in with the flow of air over them. Hupmobile is another manufacturer with a new car designed especially for the lower-price field. Hupmobiles are distributed in Edmonton by Miller Motors Ltd., on Jasper and 106 St.

## Chevrolet Models Vary in Appearance

Chevrolet has departed from the practice of furnishing two models, the Standard and the Master, in nearly identical appearance. This year the Standard remains almost the same appearance as last year's model, except that it is built up in stature and power to the size of last year's Master. But the 1935 Master model as shown here is almost entirely new in design, its outstanding development being the all-wheel "turret" top, narrow radiator, horizontal fenders and improved "knee action." The Master 6s range in price from \$1045 to \$1235 delivered at Edmonton. On show at Edmonton Motors Ltd., corner of 100 St. and 102 Ave.

## New Springing Provides Easier Riding in Dodge

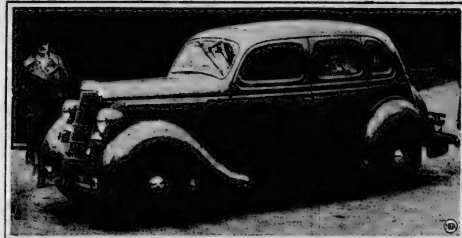

Best proof of the 1935 Dodge will be found in the seeing as in the riding. For this Chrysler product offers an unusual type of "synchromatic" front suspension and a redistribution of the car's weight, that reduce the jarring motion of the body to a minimum and assure more comfort to rear passengers. Dodge's cross-bracing system, also, makes operation of the car much easier. Dodge D.V. De Luxe Sedan can be purchased complete at Edmonton for \$1155. Before you buy any car see them at Burrows Motors, 1026 101 St.

## Nash Announces Ten Major Improvements

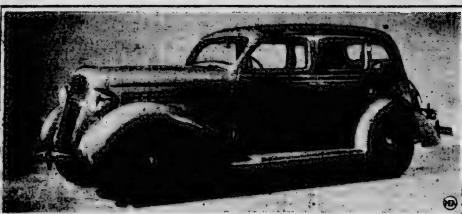

The new Nash six and eight-cylinder cars for 1935 are offered this year with ten significant improvements in construction and appearance. These range all the way from new grille lines in the body to greater ease in riding, due to an improved system of spring suspension and movement of the entire body forward. All that in addition to twin-spindle. The Nash shown here is the advanced six-cylinder model and sells for \$1175 delivered at Edmonton. Nash can be seen on display at Ken's Service Garage, 109 St. and 106 Ave.

## Greater Comfort for Ford Passengers

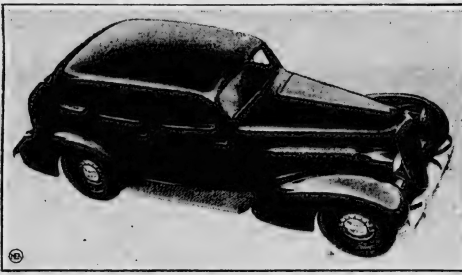

The first thing you notice when you look at the new Fords is the greater streamlining of the body and its "larger" appearance. But even more pleasing, when you get into the rear, is the greater comfort you'll get in riding. That's because the body has been moved more than eight inches forward, so you won't get the hump by sitting over the rear axle. Shown here is the Fordor sedan. See the full line of Ford models at Dominion Motors Ltd., 102 St.

## 'Airstream' Becomes Companion to 'Airflow'

For the more conservative automobile owners, DeSoto introduces a companion to its radical "Airflow" in the form of the "Airstream" model shown above. This new product has all the mechanical and riding advantages of the "Airflow," and yet does not depart so distinctly from standard design. Both types are equipped with ride stabilizers to reduce sideway on curves, high compression six-cylinder engines on "fluid" power, and automatic transmission overdrive, the latter at extra cost. This car can be purchased for \$1360 complete at Edmonton from Burrows Motors, 1026 106 St.

## 'Turret Top' Body Designed for Greater Security

Oldsmobile is one of at least four automobiles that will appear this year with the new type of all-wheel, or "turret" top. As shown here this is one solid sheet of steel from nose to tail under the rear window, providing greater security to the car's occupants. Oldsmobile also has moved the body forward to afford much more comfortable riding for the rear passengers. Selling at \$1204 to \$1439 complete at Edmonton. See them at Edmonton Motors, Ltd., Cor. 102 Ave. and 100 St.

## Graham Reaches Into Lower Price Field

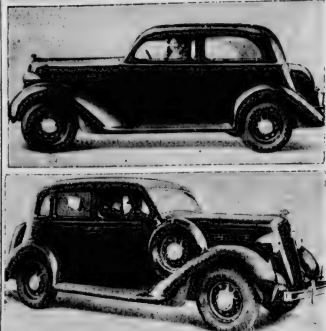

The new 1935 Special Six Sedan shown here is Graham's contribution to modern styling in automobiles. And a lower priced six is that company's effort to gain popularity in a new field. Now there are two sixes and two eights, one of the latter equipped with a supercharger for greater speed and power. The long, low rakish lines and the extreme flare in the rear are peculiar to this automobile. Graham's delivered Edmonton are priced from \$1098, and are on display at Penn Motor Sales Ltd., Cor. Jasper and 114 St.

## New Low-Priced Six Joins Pontiac Eight

At the bottom shows the Pontiac was dubbed "The most beautiful thing on wheels." Here is the only new low price car with full ball joint steering, motorized shock absorbers to all bearings, and with silver alloy hubcaps, wire double the life of old type bearings. Other features solid steel "turret" top, triple sealed hydraulic brake, roller mainline suspension, performance and economy unequalled by any other car of its weight. It's a genuine economy. As to its looks, equal economy makes \$1100 to \$1365, 101 St. Edmonton. See them at Penn Motor Sales Ltd., 101 St. and 106 Ave.

## 1935 Plymouth Has New Features

The new 1935 Plymouth is bigger, more powerful and more beautiful than any of its predecessors. All models are three inches longer, three inches wider—and the motor develops 82 horsepower with the same bore and stroke. The coupe and sedan pictured above show the car's sleek modern beauty. Floating fender has been adapted to the 1935 Plymouth and the result is a smooth, glide-like ride. There are three new ride features—semi-enclosed tapered leaf springs made with new steel, double action shock absorbers and the sway eliminator. The weight of the car has been distributed equally between the front and rear axles. Previously, about 40 per cent of the car's weight was on the front axle with 60 per cent on the rear axle. Plymouth prices start \$880 for the coupe convertible, at Edmonton. See them on display at Motordrome, Ltd., 1015 102 St.

## AERODYNAMIC DE SOTO IS NEW IN AUTO WORLD

### Airflow Features Revolutionize Construction—Breaks Records

Two new lines of aerodynamic cars—a refined Airflow and a new Airstream—were recently announced by the DeSoto Motor Corporation of Canada, Limited. Both lines represent the application to modern design of the Airflow principles which DeSoto engineers believe were endorsed by the public last year.

The radiator of the Airflow DeSoto has been rounded and extended to give a longer appearance to the hood. Airflow features which revolutionized the industry last year have been maintained while important engineering features have been added. The new Airflow DeSoto is in the same price class as the first Airflow which last year won the Grand Prix for style at Monte Carlo, broke thirty-two A.A. Contest Road speed records and established a new transatlantic fuel economy mark. The new Airflow DeSoto line incorporates many Airflow features: it is a car right next to the Airflow in design and puts DeSoto in the popular price class with a style car.

**TWO MODELS**  
The Airflow DeSoto is presented in two body models with a wheel base of 115½ inches, four door six passenger sedan and the coupe. The Airstream line has three body models with 118 inch wheelbase—the rumble seat coupe, four door sedan and four door touring sedan. Engineering developments of great importance feature both Airflow and Airstream cars. An improved automatic vacuum spark retarder the spark during periods of acceleration. This reduces spark knock formerly so objectionable to high compression.

Two other important advantages are the air cooling of the clutch and generator on both Airstream and Airflow lines. In the clutch housing screened vents permit the frictional heat generated within the clutch to escape. The main pressure plate is held so that it acts as a fan and draws a steady flow of air through the clutch at normal driving speeds.

**FUNDAMENTAL FEATURES**  
Many features which have been proven in DeSoto's long experience will be continued this year on all models. These include: Flexible power engine mounting, by which the DeSoto engine is suspended in rubber, is balanced to absorb its own vibration; valve seat inserts of tungsten steel; ample use of ball and roller bearings, and many other features. DeSoto line-proved self-equalizing hydraulic brakes that will other makes of cars are turn-

## CONTROL PANEL ON NEW DODGE MODERNISTIC

Modernistic beauty and greatly improved legibility distinguished the centre-mounted instrument panel of the new Dodge. The number and divisions of the airplane-type speedometer—which is graduated up to 100 miles per hour—are unusually large; they are flanked by the oil and gasoline gauges at the left and by the engine temperature indicator and ammeter meter at the right. Instrument panel illumination is direct, by lamps that glow "on" when withdrawn and "off" when returned into their socket.

# LOCALS TO THE SERIES WITH SUPERSTARS

## GOMEZ IS YANKEE HOLDOUT FOR CONTRACT OF \$27,000

NEW YORK, March 2.—Vernon "Gloomy" Gomez, an southpaw of New York Yankees, came back from a world tour, slugged at the figures in his 1933 contract, rushed down town for a heated session with Ed Barrow, business manager, and then proclaimed in a petulant rant that he is the spring's first Yankee hold-out. "I asked for a two-year contract at \$27,000 a year," Gomez said, "and they turned me down. I don't know what the next move is."

## WALCOLM CAMPBELL PLANS TRIALS AT DAYTONA TODAY

DAYTONA BEACH, Fla., March 2.—The tension is off for Malcolm Campbell, the man who risks the money, for his driving talent on the racing sands today. The beach is smooth again. While it is not the first time Campbell has been in the hot seat and short for fulfillment of his racing dream—300 miles an hour and a million dollars—his latest effort is his last, because he has lost their 11-year-old daughter.

# Favored Players Advance In Campaign For City Badminton Laurels

## Finals To Be Played Saturday

by BILL LEWIS

THE STUART'S Superiors will be battling with their backs against the wall in the final game of the Alberta branch Amateur Athletic Union of Canada, which took the superior up to the final round, and there they will be in a 5-2 drubbing. It is to be the first Superior equal tonight at Lussar.

It is announced by B. W. Bellamy, of Vancouver, secretary of the Alberta branch Amateur Athletic Union of Canada, that the final game of the provincial amateur figure skating championship in Calgary on Saturday, March 2, will be between the Stuart's Superiors and the Lussar team.

The services of A. L. Dyer, of Winnipeg, who has for several years acted as a referee in the Montreal, Toronto, Ottawa, and other cities, have been secured to act as a judge of the contest, which is expected to be the keenest competition yet seen in the history of the branch.

The annual provincial winter championships of the Alberta branch Amateur Athletic Union of Canada, according to the schedule of the branch, will be held in Calgary on Friday, March 2, and a record-breaking entry list is anticipated. Entry fees will be available within a few days, and information may be obtained from A. L. Dyer, M.C.A., Calgary, or Calgary, Alberta.

Azucar, reformed steepchaser, is shown as he crossed the finish line two lengths ahead of a field of 18 starters, to win the \$100,000 Santa Anita handicap.

## Indians Outscore Soops For 5-2 Win At Mountain Town

LOCALS ARE SWAMPED UNDER GREAT RALLY BY Lussar in First Period; Next Game Scheduled Tonight

by BILL LEWIS

LUSCAR, March 2.—Flashing in three goals in a blistering first period scoring spurge and coming back with another pair in the first frame, Lussar's fighting men of Redskin forced scoring into the Northern Alberta Senior hockey fixture Friday night when they whipped Edmonton Superiors 5-2. The triumph evened up for the 4-2 reverse A. N. Scott's steady squad suffered in the first game of the Northern Alberta finals at Edmonton, and, as the result, they go into the third and deciding contest tonight all square with the Sturtevant.

## STETTLER SIX EASILY WINS HOCKEY TILTS

Defeat Lacombe In Two Game Series By 19-4 Margin

STETTLER, March 2.—Stettler Imperials won a heavy scoring victory over the Lacombe Athletics in the first of two games of the Stettler-Lacombe hockey series, which was played at Stettler, Alberta, last night. The Imperials won the first game 19-4, and the second game 15-2, for a total score of 34-6.

## Week-End Hockey Program Arranged

There is still plentiful action for followers of the puckster. The Alberta branch Amateur Athletic Union of Canada has arranged a good card for the week-end.

## CRUSH GIRLS ARE VICTORS IN HOOP TILTS

Beat Spruce Grove Five While Safeways Win In Close Game

At various times in the game of the city girls basketball team in Saturday afternoon last evening, in which the Orange Crush and Spruce Grove engaged in their playoffs for position in the final of the city girls basketball tournament, the Orange Crush girls were victorious.

## VARSITY CAGERS PLAY RAYMOND

Meeting Raymond Union Jacks for the second time this season, Doug McInnes' University of Alberta senior basketball team will take the floor at Varsity gymnasium at 8 p.m.

## ALBERTA CO-EDS RETAIN HONORS

SASKATOON, March 2.—The University of Alberta's co-ed basketball team retained their title as provincial champions today when they defeated the Regina team in the final game of the provincial championship.

## SEATTLE CERTAIN OF FIRST PLACE

SEATTLE, March 2.—The Seattle Seahawks, league leaders all season, clinched first place in the Northwest Professional Hockey League today night beyond all shadow of a doubt, trouncing the Portland Buckaroos 5-1 in a speedy game here.

## ENLARGED PROSTATE AND ALL CHRONIC ILLS OF MEN

CONSULT U.S. BOOK OF MEDICAL REMEDIES with articles on Loss of Manhood and other ailments with diagnosis, cure, treatment and advice in plain English.

## MOON MULLINS

# ALBERTA'S GREATEST SATURDAY COMIC PAGES

EDMONTON, ALBERTA, March 2, 1935

## Otto Hank

IT'S THE NEW STYLE CAR—I'M SURE YOU'LL LIKE IT VERY MUCH—

NOW! I JUST CAME IN TO LOOK AT IT. I DON'T CARE ABOUT THE DESIGN OF IT, SO THE OLD BUS WILL HAVE TO DO FOR AWHILE

I BETTER HURRY, OR I'LL GET A PARKING TICKET.

PLIP!

SO SORRY!

PLIP!

GOSH, WOTTA BUMP! MOO-WHOOP

HEY! I CHANGED MY MIND. HOW MUCH WILL YA GIMME FOR MY OLD BUS, IF I BUY THE NEW CAR?

## OUT OUR WAY

OH, HO!

SHE'S TOO BUSY WATCHIN' OUT TH' DOOR TO NOTICE ME.

GOOD GOSH! WHY DO PEOPLE PUT BOB-WIRES ON FENCES?

I GUESS I'LL HAF TA LET HER HAVE TH' PAPER. LET 'ER HAVE IT, IF SHE WANTS IT THAT BAD.

## The Willets

WAITIN' FER TH' PAPER, HAH? TRYNA BEAT ME TO IT, WATCHIN' UP TH' STREET FER TH' PAPER BOY.

I'LL KETCH HIM UP IN TH' NEXT BLOCK, SO SHE WON'T SEE ME GITTIN' TH' PAPER FROM HIM.

OH, BOY! WON'T HER EYES POP OUT, THO? HUH? NEH.

I THOUGHT YOU WERE WAITING FOR THE PAPER. TH' BOY JUST THREW IT ON THE PORCH.

## By Williams

WELL, I KNOW HOW TO BEAT HER GAME. I'LL JIS SLIP INTO PA'S SUPPER, TO SAVE TIME.

THEN SNEAK IN AN' SIT DOWN WITH TH' PAPER, AN' WATCH HER EYES POP OUT.

ROOFIN' PAINT, ER SUMPN! GOOD NIGHT.

I DON'T WANT THE PAPER—I'M WAITING TO CATCH ANN, GOING BY FROM WORK. I WANT TO TALK TO HER.

Ask the Junior Members of Any Family About

## Little Orphan Annie — By Harold Gray

AN EDMONTON BULLETIN DAILY FEATURE

It's the Best Kiddie Strip that money can buy.

## THIS CURIOUS WORLD

### BIG TREES (SEQUOIA GIGANTEA)

ONE TIME, THE BIG TREES THRIVED IN THE NORTH TEMPERATE ZONE OF BOTH HEMISPHERES! NOW THEY ARE TO BE FOUND ONLY IN A SMALL AREA ON THE WESTERN SLOPE OF THE CALIFORNIA SIERRAS.

SOME OF THE TREES STANDING IN THIS AREA WERE LARGE TREES THOUSANDS OF YEARS BEFORE CHRIST WAS BORN.

**THE GENERAL SHERMAN TREE,** WHICH STANDS IN SEQUOIA NATIONAL PARK, IS CONSIDERED THE WORLD'S LARGEST LIVING THING! IT IS KNOWN TO BE THOUSANDS OF YEARS OLD AND HAS AN ESTIMATED WEIGHT OF 6,000 TONS.

FOREST FIRES HAVE LITTLE EFFECT ON THE THICK-BARKED GIANTS OF THE PLANT WORLD.

EVEN THE SEEDS OF THE BIG TREE SEEM INDESTRUCTIBLE. CONES WHICH ESCAPE THE DRYING EYES OF SQUIRRELS MAY HANG ON THE TREES FOR YEARS — THE SEEDS RETAINING THEIR POWERS OF GERMINATION.

BUT SEQUOIAS MUST DIE, AND WHEN THESE 300-FOOT MONARCHS GO DOWN, THE ROAR DROWNS OUT THE THUNDER OF THE STORM THAT FELS THEM.

LIGHTNING MAY SHATTER THE CROWN OF A BIG TREE, TIME AFTER TIME, BUT NEW GROWTH REPLACES THE SHATTERED LIMBS.
